*It is not just passion that defines a person's drive. The hours one puts in speaks to this.*

*It is not merely that a person says, "Hello," that defines their capacity to care. It is the giving of one's time that displays this.*

*It is the heart that is easily shared and the earnest concern for your fellow man that defines the character of a person.*

A description of Ed's character sent to the family by a friend.

Please join the family for a light meal following the memorial. We will gather in the Cultural Hall of this building.
