

CHRISTMAS

Christmas 1973

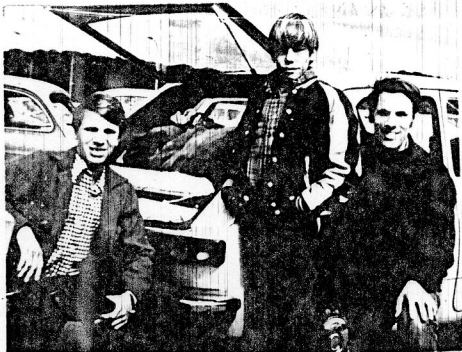

Dear Friends,

1973 has been another eventful and pleasant year for the Kearls. Last year at Christmas, Edward, our eldest, graduated from Cornell in labor relations. He's been working for the Hospital and Drug Workers Union. He and Cy now find plenty of things to argue about. I guess they must both impact on the other a little and maybe temper the others views. Ed and Sue live in Queens and commute to Manhattan where they both work. Sue works for a fabric company there. Cy has visited them twice and they seem to know that big, dirty, evil city well and like it. (Seems impossible, doesn't it?)

Ed & Sue

Gary, our second son, is in his Senior year at the Univ. of Illinois, studying Biology. He has taken his MEDCAT's did very well on them, and has applied at several Medical Schools for admission next fall. He still works part time in the Biology Dept. dark room. His summer NROTC cruise was with the French Navy in the North Sea. The French Navy spoke a dialect he'd never heard during his two years as a missionary in France. He's the student Battalion Commander of the U. of I. Navy Unit. Cross your fingers for him. If he's lucky he'll be cutting up cadavers next year, before he serves his hitch in the Navy.

GARY, Al's friend
Monty, and ALAN

Martin married Jayne Redd of Bountiful, Utah on June 13th in the Salt Lake Temple.

Following the wedding, for their honeymoon, the Kearl's and the Redds (15 of us) went

river running for three days on the Yampa River in Northwest Colorado. Silly young people water fighting, rough water and being thrown into the Yampa kept us wet all day. Marty and Jayne live in Salt Lake where he's a Junior in the Business School of the Univ. of Utah. He works part time for the Utah Power & Light microfilming old documents.

MARTY & JAYNE

Weddings are contagious and Jamie married Duane Burnett

in July in the Logan Temple. Within a month Cy & Mary made two trips to Utah for weddings. Duane is a Senior at the Univ. of Utah, comes from Binghamton, N.Y., and is also a hopeful Medical Student. Jamie gets her R. N. in December from Brigham Young Univ. and will start supporting Duane as he really deserves. Duane also works part-time for the Utah Power & Light with Marty.

Alan is now delivering four paper routes, about 200 papers every morning at five o'clock. He saved his money and in August, with a friend, joined Gary in Paris. With a small car, an Alpine tent, and bed rolls they looked in every corner of France. He's a good student into many school activities.

JAMIE & DUANE

Cy and Mary have nothing good to report about themselves. The summer weddings were exhausting but fun. Life is good to us and we're grateful for our family, our friends and the blessings we've enjoyed throughout the year.

*Lovingly,
Cy Mary & all*
