

## Valentines Day

My mind is really a blank on this one! I remember we had Valentines at school but I don't remember a party particularly.

As a child I don't recall my mother giving gifts but she & Aunt Ethel used to send something when you kids were little - a. Ethel usually a card & \$1. I remember the day before Gary was born, <sup>some</sup> she & I went to town & bought everyone something plus special candy. She frequently did this or at least that is the way I remember it.
